

The Round Collection™

Textured Implants

The Round Collection™ breast implants unique micro-textured surface and gel¹, are clinically proven to be safe and effective and have been shown to have long term patient satisfaction² and low rates of capsular contracture, rupture and reoperation.³

Main features:

- Round Cristalline™ Micro-Texture Silicone Breast Implant.¹
- High-Performance: Maintains consistent strength and flexibility.¹
- ParaGel™ natural gel: highly cohesive allowing controlled distribution.¹
- ParaGelGard™ 360° Barrier Layer minimises gel diffusion and coverage and also present at the product patch, completely covering the implant.¹
- Wide variety of sizes and profiles.¹
